2. B People who suffer from Agoraphobia do not make good explorers, and try very hard not to think about the size of the Universe

3. A. It's strange, but most people seem to have a fear of spiders. This is silly because spiders are really harmless - unless, of course, you happen to run into a 'Tarantula'

4. C. Hard luck if you thought Photophobia was a fear of having your photo taken, because you're wrong

5. C Don't ask us why they call it Chrematophobia. Probably so people like us can use it in quizzes to catch you out

6. A That's right! Caninophobia sounded too obvious, so if you fell for it, serves you right
